

CAPSTONE PROJECT

AIGBOGUN OSAYUWAMEN 15TH, MAY 2022

OUTLINE

- Executive Summary
- Introduction
- Metholology
- Results
 - Visualization Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Understanding what Programming Languages are
- Introduction to programing Languages
 - Programming Language Trends
 - Programming Language Trends, Findings and Implications
- Understanding database
- Database Trends
- Database Trends and Implications

INTRODUCTION

- Programming Languages serve as tools in this modern age
- Programming Languages help machines function
- Knowledge of programming Languages gives one the needed sort after skills
- Databases helps store data
 - Databases helps companies serve customers better
 - Databases reduces data loss

METHODOLOGY

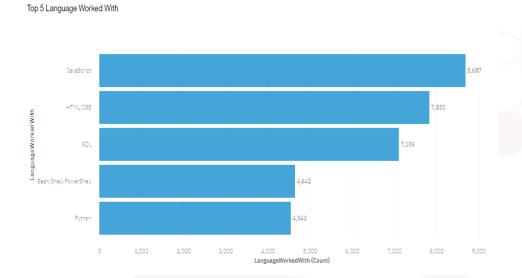

- Regressive Analysis
- Hypothesis Analysis
- **Content Analysis**
- Discourse Analysis
 - Collect the data
 - Analysis the content

RESULTS

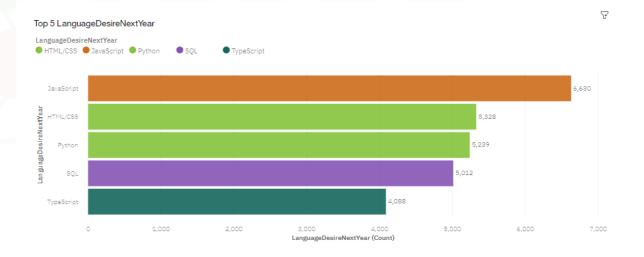

PROGRAMMING LANGUAGE TRENDS

Current Year

Next Year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & **IMPLICATIONS**

Findings

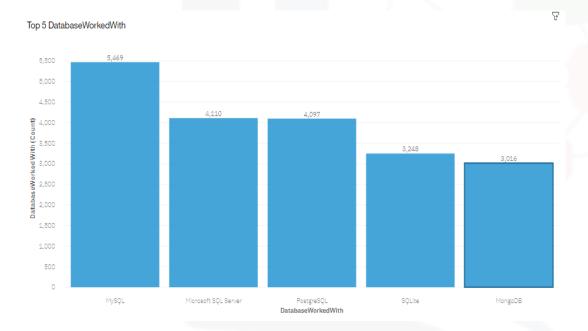

- Java the most popular primary programming language
- JavaScript the most used overall programming language
- Python the most studied programming language

Implications

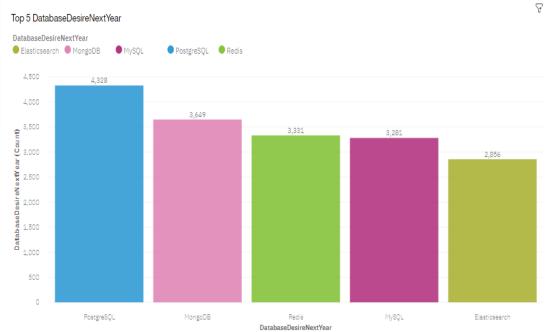

- Programming is the next big thing
- Programming languages makes work faster
- Programming languages are becoming a vital tool needed in the society

DATABASE TRENDS

Current Year

Next Year

DATABASE TRENDS - FINDINGS & **IMPLICATIONS**

Findings

SQL back on top

• ML – Driven Databases

Microservice Integration

Implications

- SQL is being used as the default querying languages
- ML models is becoming standard practice
- Microservices approach is being used for creating apps

DISCUSSION

OVERALL FINDINGS & IMPLICATIONS

Findings

- Programming languages are increasingly used
- Java is the most popular language
- SQL is the leading database

Implications

- Increasing in job opportunities
- Apps will be created with it
- SQL will be used by most companies

CONCLUSION

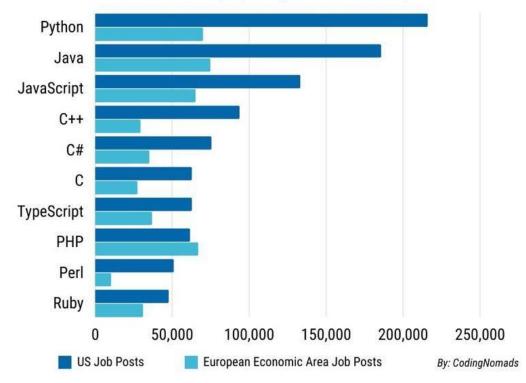

- People should try and learn a programing language
- Turn it into a lucrative skill
- Databases should be used to store data
- There are more emerging databases

APPENDIX

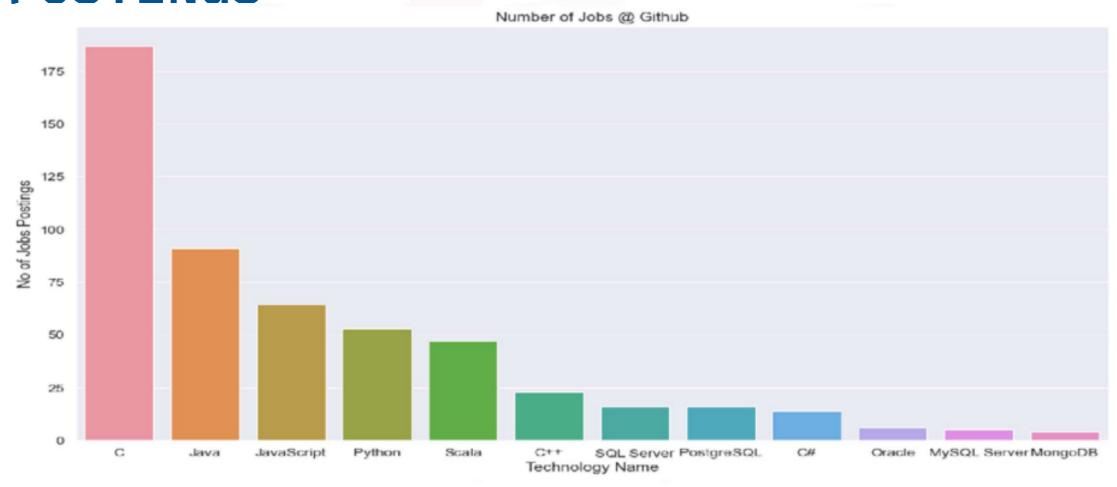

Most in-demand programming languages of 2022

Based on LinkedIn job postings in the USA & Europe

GITHUB JOB POSTINGS

POPULAR LANGUAGES
